Nature's Grove

St. Clairsville, OH

Sustaining a balance between human habitation and the natural environment was paramount in the concept plan for the Nature's Grove condominium development.

All major building and earth moving was kept to the up slope portion of the site while the valley bottom was left as open space to maintain the current wildlife corridor. Residents benefit from tree-lined streets and community commons, while also enjoying views to meadows, forests, and recreational lawns.

Rustic shelters provide the opportunities for families to gather and relax. A one half mile private trail offers exercise and interaction with community members.
