Inventory & Analysis
Schematic Design
Design Development
Construction Documents

Role:
Sub Consultant

Project Size:
6 acres

Project Cost:
\$250,000

Oakview Juvenile Rehabilitation Center in St. Clairsville, Ohio, represents collaboration between URS Corp. Architects and Hays LAS.

Hays provided the site design and construction documents.

The state funded project greatly expanded the capacity for juvenile rehabilitation in Belmont and surrounding counties. Site features include **gently curving parking lots, a volleyball court, a basketball court, an outdoor courtyard, an outdoor council ring, and an orchard of crabapple trees** that recall the history of the site as part of the Belmont County Experimental Farm.

The design also incorporates **recreational opportunities and a courtyard space for family visitation**. Hays LAS completed site design for roads and parking, earthwork, storm drainage, utility routing, walks, retaining walls, and landscape.
