Wheeling Park Master Plan Wheeling, West Virginia

Services:
Design Development
Construction Documents

Role: Prime

Project Size: 286 acres

Project Cost: NA

In addition to Oglebay, the Wheeling Park Commission owns and operates Wheeling Park, the historic city park.

The Hays LAS master plan for this property provides guidance for its numerous facilities in the context of the park's historic character.

Some of the unique features include a banquet facility, the White Palace, with associated ice rink, an indoor tennis bubble, Stone Building associated with pool and waterslides, Good Lake, the Frank Rock Garden, an amphitheater, a classic golf course, play ground, putt putt course, numerous picnic opportunities, as well as numerous sports fields.
