Grand Vue Family Fun Center Moundsville, WV

Services:
Schematic Design
Master Plan
Construction Documents

Role: Prime

Project Size: 4 acres

Project Cost: \$428,932

The Marshall County Commission hired Hays LAS to develop a plan to stimulate Grand Vue Park's revenue and offer new recreation opportunities for the residences of the Moundsville, West Virginia.

Hays LAS worked with Harris Miniature Golf who designed and built the miniature golf portion of the plan. Hays LAS also worked with Vaughn, Coast and Vaughn on all new storm sewers and utilities. The second phase is a new playground adjacent to the miniature golf course. Future phase will transform the existing swimming pool area into a water park and complete the family fun center complex.
