St. Clairsville Memorial Park Playground

St. Clairsville, OH

Services: Pro Bono

Role: Prime

Project Size: NA

Project Cost: NA

Members of Hays LAS volunteered their time in assisting the St. Clairsville city council and community in layout and construction of a parking lot, pedestrian walks, playground equipment and tree plantings in the local city park.

Dozens of citizens and contractors volunteered their time and talents to completed the project over one weekend. The playground plan integrated new equipment with existing pieces. An ADA accessible perimeter walk that circulates throughout the area was added. Hays LAS located a 12' tall spider climb at a clearing where it can be seen throughout the park.

Today the park is quite popular with the community and draws patrons of all ages.
