Project Size: 20acres

Project Cost: NA

Providing prestige in professional land planning and design."

Mylan Park Morgantown, WV

Hays LAS principal Gabe Hays and Michael Mills, AIA, of The Mills Group and representatives from Mylan Park spent one half day in design charette.

Reasons for the program included placement of an amphitheater with 2,000+ seats, expo building and appropriate parking designations.

The design team looked at existing grades, connectivity and slope aspects to provide a design solution for an optimal site orientation and placement.

The plan utilizes the natural lay of the land and infrastructure, thus decreasing excess construction costs and environmental stress.
