**Role: Prime**

**Project Size: .9 acres**

**Project Cost: NA**

This private residence combined the elegance of the restored classical home and the benefit of a naturally sloping site with mature vegetation.

Hays LAS worked with the new property owners to add a classical flair to the landscaping. Stone paving was added to the pool deck to create a surface and landscape form with a high degree of integrity.

In the center of the governor's drive, a formal knot garden provides the perfect setting for the new stone fountain and pool. In the lower yard, a formal croquet lawn, a shuffle board court, an oval brick patio, and a whimsical bronze rabbit sculpture named "Chauncey" grace the beautiful outdoor living space.
