

Providing prestige in professional land planning and design."

McBee Residence

Wheeling, WV

Services:
Master Planning
Planting Plan
Layout Plan
Construction Documents
Construction Observation

Role: Prime

Project Size: .75 acres

Project Cost: \$150,000

Hays LAS developed a full master plan for the McBee Residence in Wheeling, WV. The client's desire to incorporate formal knot gardens, bold centerlines and focal points into their "clean slate" property was a challenge met by the Hays design team. Beyond the formal garden, driveway, arbor and patio design, Hays LAS provided the client with Construction Bidding services and observation.
