Monument and Wall Design  
Construction Documents

**Role:** Sub Consultant

**Project Size:** 4 acres

**Project Cost:** NA

Hays LAS had the pleasure of working with Cerrone Engineering, Weirton, WV in developing a conceptual site plan for St. Paul's Cemetery Expansion.

The scope included developing a fully accessible garden that showcases a variety of memorial products and incorporates an existing spring and stream that runs directly down the middle of the site. Permeable crushed stone walks, natural swales, and limited hardscapes helped minimize site storm water impact.

Hays LAS is currently assisting the Church and Cemetery operations with executing site development.
