## **Thoburn United Methodist Church** St. Clairsville, OH

In collaboration with community members, Gabe Hays of Hays LAS designed a Biblical Garden for Thoburn United Methodist Church. The design included planting plans that incorporated plants that hold significance in the Bible. Bible scriptures are full of plant references, and plants and trees are an integral part of well-known Bible stories.

As funding and maintenance allow, phase two of the Biblical Garden hopes to bring other plants of the Bible to Thoburn's Biblical Garden. Future additions may include Crocus, Cedar-of-Lebanon, Rose of Sharon, Tamarisk, Pyracantha, Boxwood, Nut Trees, Hyacinth, Grapes, along with various herbs and crop plants just to name a few.
