New Cumberland Streetscape

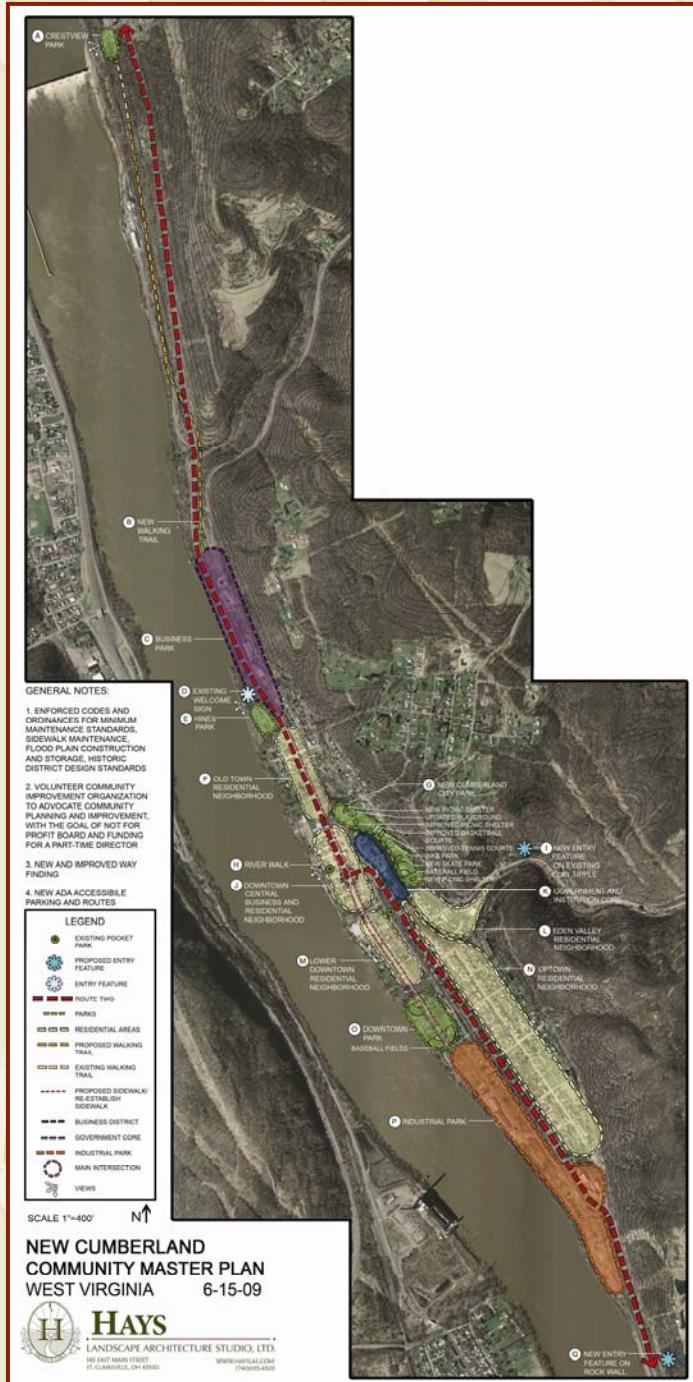

New Cumberland, WV

Services:
Inventory & Analysis
Conceptual Development
Community Master Plan

Role: Prime

Project Size: 50 acres

Project Cost: NA

Hays LAS commissioned by the city of New Cumberland, WV, provided an overall community wide **master plan** and **downtown streetscape**.

The community wide master plan included: connectivity between city parks, amphitheater, parking, shelters, way finding, and playground equipment.

The downtown streetscape included ADA accessibility, vegetation, improved drainage, re-establishment of brick sidewalks, lighting, relocation of utilities, way finding.

Hays LAS understood the importance of incorporating the city's history of manufacturing bricks, and incorporated the reuse of manufactured bricks in the master plans.
